

ARCHITECTS & ENGINEERS

WE UNDERSTAND DESIGN FIRMS

Architects and engineers are highly specialized and technical professionals. Their design decisions permeate a project, affecting cost, efficiency and even public safety. With such capability comes great responsibility - and risk. With so much at stake, expertise and experience is essential. Since creating the very first professional liability policy for architecture and engineering firms in 1957, Victor has been leading the way, crafting innovative policies that stay a step ahead of the evolving needs of design firms.
