Keep it simple ...

Align the right people, to the right project, with the right tools, to do the rights things, at the right time.

Managing Project Relationships

Schinnerer Webinar – October 14, 2015

<h3>The Speakers</h3>
<p>Todd Duwel – Duwel Law</p> <p>todd@duwllaw.com</p> <p>DUWEL LAW offers proactive and customized risk management assessments and due diligence services to architectural and engineering firms across the country, which promote a more robust insurance program and develop internal protocols that benchmark predictive analyses and encourage deliberate critical path management.</p> <p>RISK cannot be eliminated, nor should that be any firm's goal. Rather, it can, and should, be managed to continually assess both the strength of a firm's internal controls and the industry's dynamic environment to ensure beneficial alignment. Design professionals are not perfect; but, they must always remain curious, aware and accountable.</p> <p><small>© 2015, Victor O. Schinnerer & Company, Inc.</small></p>

<h3>The Speakers</h3>
<p>David R. Johnson – CR Architecture + Design</p> <p>d.johnson@cr-architects.com</p> <p>CR Architecture + Design provides full design services through its offices in Cincinnati, Dallas, Denver and Seattle.</p> <p>As CR's Chief Operations Officer, Dave Johnson provides oversight of the company's seven specialized areas of architecture. He is responsible for managing all aspects of daily operations, executing CR's vision and values and maintaining positive relationships with clients, consultants, and staff.</p> <p><small>© 2015, Victor O.
